

BECTON REGIONAL HIGH SCHOOL

New Jersey Department of Education designated Becton Regional High School as a High Performing School District after recently completing its review and evaluation process. NJQSAC is the Department of Education's monitoring and evaluation system for public school districts. The new system is a single comprehensive accountability system that consolidates and incorporates the monitoring requirements of applicable state laws and programs and compliments federally required improvements. The system focuses on monitoring and evaluating school districts in five key components which, based on research, have been identified to be key factors in effective school districts. These components are: instruction and program; personnel; fiscal managements; operations; governance. The Becton High School District had an exemplary performance in all areas.
